

Inventory

Complete Inventory Visibility, without Uncertainty

Centralize aviation inventory data so you always know what is available, where it is located, and what is ready for use, from receipt through deployment.

Purpose-Built for Aviation Logistics Teams

One reliable system for tracking, controlling, and deploying aviation inventory.

What you gain:

- ➔ Clear visibility across warehouses, shelves, and bins
- ➔ End-to-end control of part movement with a complete audit trail
- ➔ Aircraft applicability mapping by make, model, and serial range
- ➔ Automated replenishment based on defined thresholds

The CAMP Aviate Inventory Advantage

1. Total Visibility & Traceability

Real-Time Tracking: Track instant stock levels across warehouses, shelves, and bins.

End-to-End Audit Trail: Follow serialized and lot-controlled parts from receipt to final disposition.

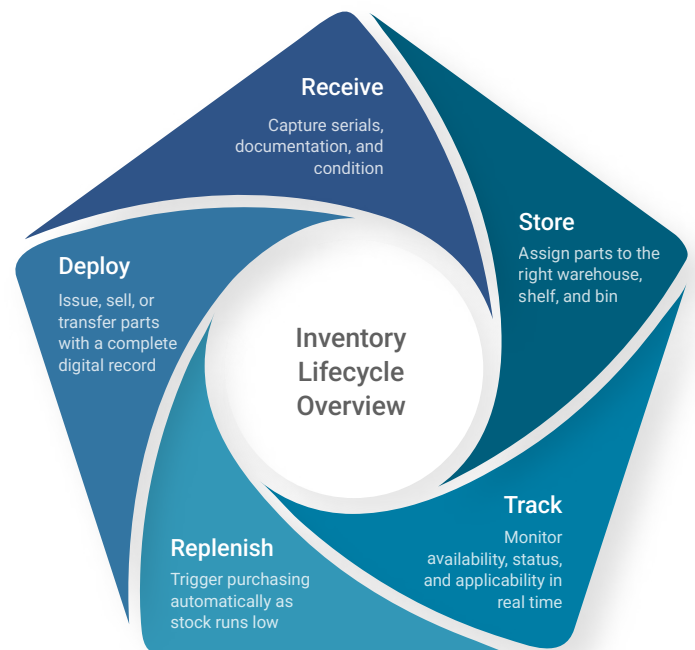

Digital Documentation: Store certificates, manuals, and images directly within the

2. Operational Precision

Aircraft Applicability: Map parts to specific makes, models, and serial ranges to prevent installation errors.

Smart Substitutions: Avoid AOG (Aircraft On Ground) delays by identifying approved alternates and superseding parts instantly.

Shipping & Logistics: Pre-set packaging configurations and hazard details for faster, error-free shipping.

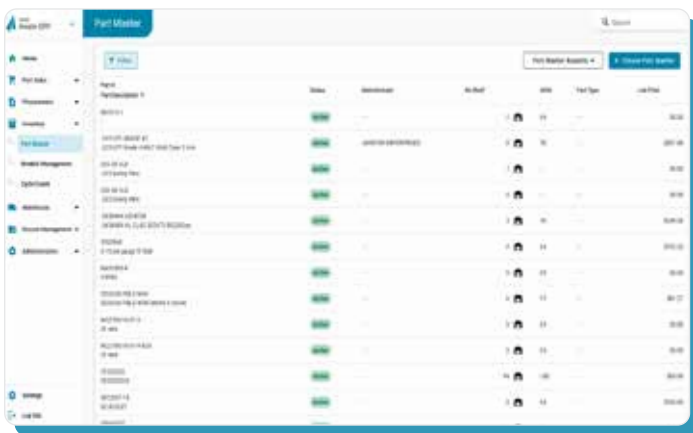

Inventory

3. Proactive Supply Chain

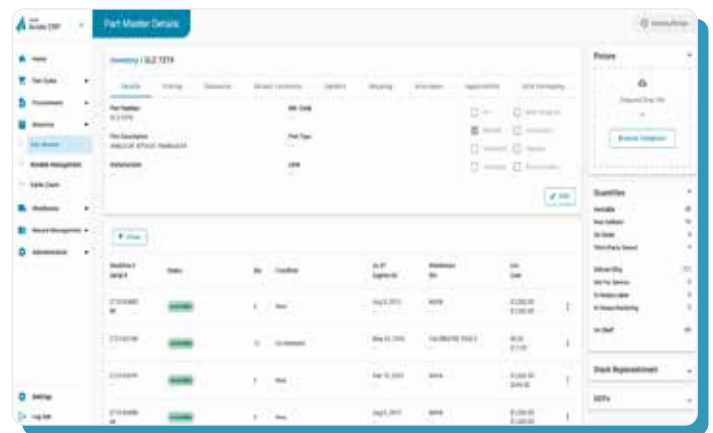

Automated Replenishment: Trigger system-generated purchase requests by custom inventory thresholds.

Preferred Vendor Logic: Default to certified suppliers to maintain quality and reduce procurement lag.

True Cost Intelligence: Track landed costs and vendor pricing to protect your bottom-line margins.

Smarter Inventory. Stronger Operations.

- ➔ Fewer operational delays caused by missing or misplaced parts
- ➔ More predictable maintenance and supply chain planning
- ➔ Reduced audit risk and faster response during inspections
- ➔ Better cost control and purchasing decisions
