

Purchase Order

Total Control from Request to Receipt

Command every stage of your purchasing lifecycle with a system built for clarity, speed, and collaboration. Easily create, approve, and track Purchase Orders while aligning teams and streamlining vendor interactions.

Capabilities That Power Efficient Buying

Dynamic Order Management

- Quickly generate Purchase Orders (POs) for goods, services, or non-inventory requests.
- Select vendors, define payment terms and delivery schedules, and include all required documentation.
- Modify line items, apply pricing rules, and tailor fields to match your procurement process.

Real-Time Tracking and Oversight

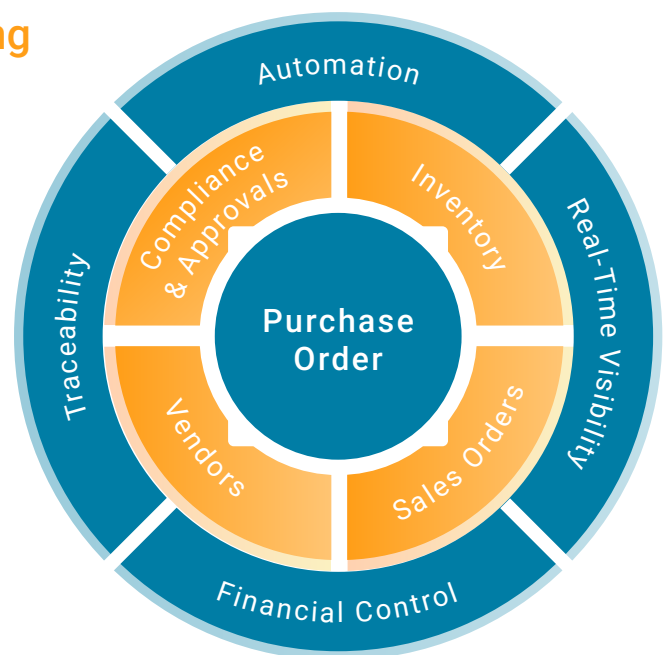

- Monitor all Pos—open, fulfilled, and partially received—in one dashboard.
- Review complete purchase history by vendor, item, or associated work and sales orders.
- Stay ahead of delays with real-time shipment progress and delivery estimates.

Centralized Documentation and Controls

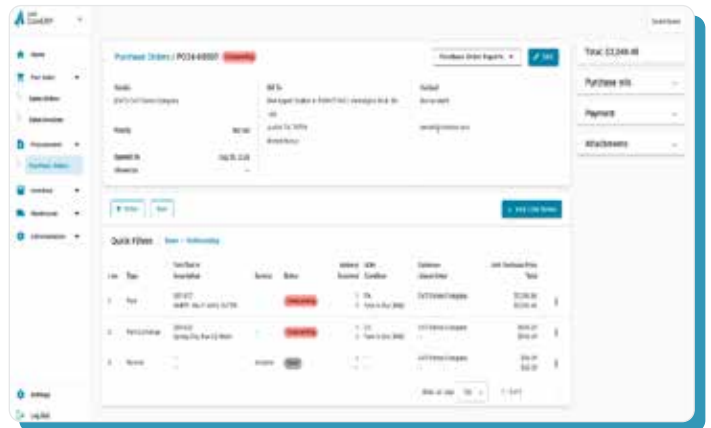

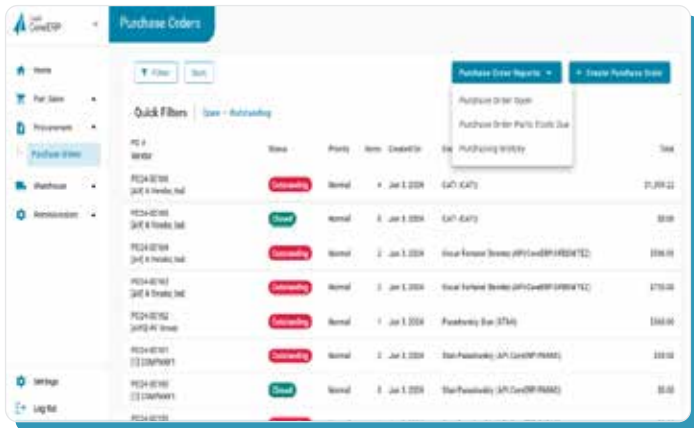

- Attach vendor contracts, shipping documents, and compliance forms directly to each PO.
- Maintain a complete, timestamped audit trail from request to closure.
- Enforce accountability with built-in approvals and documentation.

Integrated Procurement Flows

- Automatically trigger POs based on inventory thresholds or sales order demands.
- Synchronize procurement between inventory, sales, and operations for a seamless flow.
- Eliminate manual processes and reduce errors with system-driven synchronization.

Purchase Order

Strategic Procurement Outcomes

- ➔ **Accelerated Cycles** – Automate approvals and order creation to reduce purchasing turnaround time.
- ➔ **Vendor Intelligence** – Leverage historical data for performance tracking and making informed sourcing decisions.
- ➔ **Spend Visibility** – Strengthen budget control with full visibility into procurement activity and vendor spend.
- ➔ **Compliance by Design** – Enforce accountability with role-based access and audit trails.
- ➔ **Insight at Every Step** – Gain visibility across procurement lifecycle for agile, data-driven decisions.
