

Cycle Count

Audit Your Stock Without Disrupting Operations

Maintain accurate inventory records without shutting down the warehouse. Cycle Count enables structured, rolling counts that quickly surface discrepancies in real-time and help reconcile your data instantly—ensuring your system always matches your shelves.

Built for Active Warehouse Operations

Cycle Count is designed to fit into real warehouse environments, allowing teams to audit inventory accurately without interrupting daily workflows.

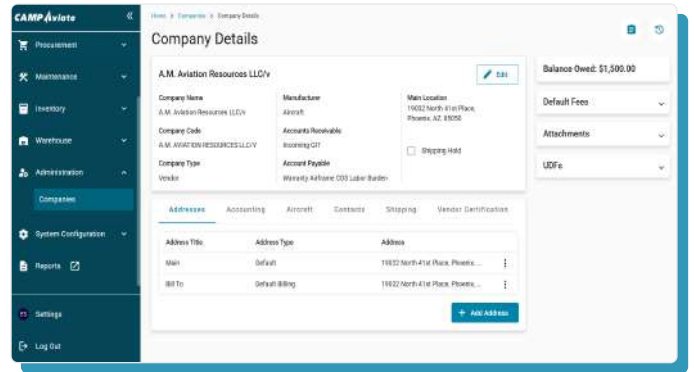

Core Capabilities

- **Intelligent Audit Management:** Stay on top of rolling counts and ensure every corner of your warehouse is verified on schedule.
- **Intuitive Digital Workspace:** Empower staff with a dedicated "Working Page" that simplifies data entry directly on the warehouse floor.
- **Seamless Stock Reconciliation:** Close the loop on discrepancies by approving adjustments that instantly update live inventory records.

Reporting & Insights

- **Cycle Count Sheets:** Generate printable sheets by item and location for fast physical counts.
- **Variance Overviews:** View differences between system inventory and physical counts to focus on quantity variances.
- **Warning Reports:** Surface counts with discrepancies or missed timelines before they impact accuracy.

Measurable Business Outcomes

- ➔ **Higher Accuracy:** Maintain high-precision stock records with less manual effort.
- ➔ **Operational Speed:** Faster variance resolution without disrupting picking or fulfillment.
- ➔ **Data Confidence:** Greater reliability in inventory data across the entire business.
