

### Maintenance on the Move

Empower your team to perform, document, and complete maintenance tasks from anywhere. With real-time updates and streamlined workflows, you can ensure maximum efficiency and smooth operations, all from the convenience of a mobile device

### For Team Leads

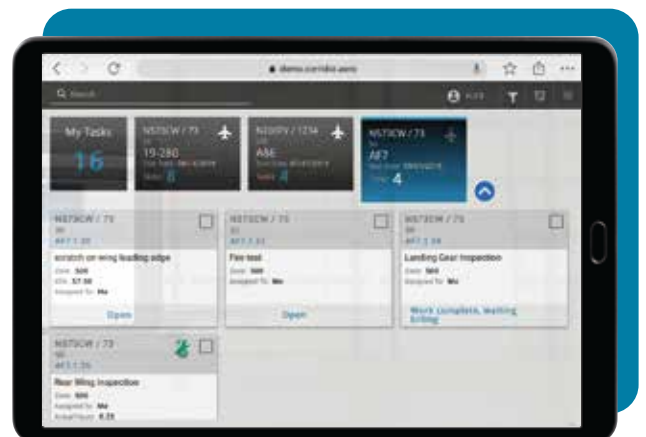

#### Assign and Manage with Ease

- **Simplified Assignments:** Easily assign technicians to specific tasks, gaining extensive insights into maintenance performance and individual workloads.
- **Work Order View:** View all work orders and technicians, showing task assignments and statuses.
- **Task Management:** Assign multiple technicians to a task, automatically notifying them upon assignment.
- **Filter Options:** Filter tasks by completion date, status, and more.
- **Work Order Dashboard:** A detailed visualization of all maintenance work, showing progress, task assignments, hours worked, parts status, and due dates.
- **Technician Dashboard:** Get a quick overview of each technician's workload, allowing for efficient task redistribution.

### For Technicians

#### Freedom to Work Anywhere

- **Mobile Access:** Break away from workstations and perform maintenance tasks anywhere on the shop floor.
- **User-Friendly Interface:** Simplified interface for easy navigation and task management.
- **Real-Time Updates:** View and update maintenance tasks, attach pictures, request parts, and more in real-time.
- **Streamlined Workflow:** Start labor, document findings, check out tools, and manage parts all within the app.
- **Signoff and Authentication:** Supports electronic signatures and optional PIN for secure task signoff.
- **Efficiency in Action:** Eliminate paperwork, enhance communication, and increase overall efficiency.

## Key Features

### Empower Your Team with Advanced Features

- **Wireless Shop Floor:** Facilitate a wireless work environment for enhanced mobility.
- **Material and Procurement Requests:** Issue materials and generate requests effortlessly.
- **Time Management:** Log job labor and manage time & attendance directly from the app.
- **Inspection Management:** Supports signoff and inspection management with full electronic signature support.
- **Instant Image Uploads:** Take and upload pictures instantly to work orders.
- **Dashboards:** Work Order and Technician dashboards provide graphical representations of work progress.

## Major Benefits

Save time on every batch of tasks

Boost efficiency with real-time data flow

Quick user training through a simplified interface

Enhance team management with live status updates

Improve documentation and resolution quality

Enable informed decision making with real-time data
